DO WE REALLY NEED A NEW POST OFFICE?

If you are concerned about this issue, you are encouraged to write a letter simular to the following and send it to the list below.

"Carbondale does not need a new Post Office. To spend a half million dollars on a new Post Office in Carbondale is to misuse taxpayer's dollars. If Federal money is available for use in Carbondale it should be used to remodel the present Post Office and to restore and rehabilitate other historically and architecturally important buildings in Carbondale. To move the Post Office from its present building is to jeopardize the life not only of Main Street but also of Carbondale."
